We use the prestigious and well known brand 'Lycon' for all waxing appointments. We believe that your waxing appointment should be clinical, speedy and as pain free as possible. Lycon wax is made from all natural ingredients such as resins, beeswax and aromatherapy oils. Lycon offer both hot wax and strip wax systems and can remove hairs as short as 1mm so there is no down time in between appointments! Because of the variation of Lycon waxes stocked in the salon, we are able to tailor waxing appointments to suit the needs of our clients.

Threading is a traditional method of hair removal originating from Asia. Threading is where a thin piece of thread is doubled, then twisted to form a coil. It is then rolled over an area of unwanted hair growth removing the hair at the follicle level. It is a precise method of hair removal and is gentle on the skin. It is very effective for facial hair removal.

Dermalogica Teen Facials:

Nearly all teenagers will experience breakouts at some point! We have all been there and know how frustrating it can be. Dermalogica's Teen Facials are specifically designed to treat teenage breakouts while also improving the overall condition of the skin. Suitable for both teenage boys and girls, we use Dermalogica's unique teenage range 'Clear Start'. Dermalogica Clear Start is a range of products specifically designed to treat teenage breakouts while also improving overall skin condition. Many teenagers make the mistake of using products they see advertised to treat spots but sometimes these products can aggravate the concern in the long term and may not actually be suitable to their skin at all. This is where consulting with a professional skin therapist can be invaluable to discuss their skin concerns and how best to get results with their products. They have the opportunity to gain invaluable knowledge where skin care is concerned.

Clear Start Teen Express Facial 30mins €30

Using the Clear Start products, your skin is double cleansed with steam to ensure a deep clean, your therapist will then conduct a thorough skin analysis and decide how best to treat your skin within this express facial. This analysis gives you the opportunity to ask any skincare related questions and express your main skincare concerns. Your therapist will then target the rest of the treatment around your main skincare concern to make the most of the half hour treatment, be it exfoliation, hydration, extraction etc. Each facial is then finished off with a skin smoothing and rehydrating moisturiser.

Clear Start Teen Facial 1 hour €50

Using the Clear Start products, your skin is double cleansed using steam to open up the pores, An exfoliation is carried out to remove any dead cells which may be blocking your pores and extractions are done to help clear congestion. A relaxing massage is then performed and a masque is then applied which is customized depending on what your skin needs. To finish your therapist will apply her chosen aftercare for you, discuss your homecare and answer any questions you may have.

Body Treatments:

Many of us are good at taking care of our face, but often times we neglect our bodies! Sometimes our bodies crave and desperately need a little bit of tender loving care and this is where our Body Treatment's come in!

A full exfoliation, beginning with dry body brushing and then the use of a luxurious sugar scrub that leaves your skin exfoliated and moisturised at the same time. It contains no oils, which can clog the skin and cause breakouts. The treatment is then finished off with the application of a luxurious and refreshing body lotion to leave your skin feeling as smooth as silk and provide all day hydration for even the driest of skin types. This treatment is particularly good for those prepping for tan application, or those going on a sun holiday.
